

KEEP YOUR COOL WITH A HOT INCENTIVE THIS SUMMER

ENERGY INCENTIVES TO KEEP COOL

Does your central air conditioner need some TLC? Air conditioners can lose up to 5 percent of their original efficiency every year if they are not serviced.

That's why we offer a \$35 incentive to get your A/C tuned up by a professional service technician. You'll use less energy because your air conditioner will run more efficiently.

And don't forget to regularly replace air conditioning filters. A dirty filter will slow down air flow and make the system work harder—wasting energy. This is your chance to stay cool—and take the heat off your wallet.

PROGRAM REQUIREMENTS

To receive the \$35 incentive, the following program requirements must be met.

- The Central Air Tune-Up Discount Program is available only to residential customers with a valid Algoma Utilities electric account.
- Qualifying inspections and tune-ups must include all items listed in the 12-point checklist and must be performed by a professional heating and cooling service technician.
- In no case will Algoma Utilities pay more than 100% of the actual purchase price of the central air conditioner inspection and tune-up.
- Please submit your application request by September 30, 2026.

HOW TO RECEIVE YOUR INCENTIVE:

1. Complete the application form.
2. Attach original sales receipt or paid invoice.
3. Drop off the application at Algoma Utilities offices, or mail it to the address on the form.

NOTE:

Applications are accepted on a first-come, first-serve basis, until allocated funds are spent.

TERMS & CONDITIONS

- Algoma Utilities makes no warranties, expressed or implied, with respect to any equipment purchased and/or installed including, but not limited to, any warranty of merchantability or fitness for purpose.
- In no event shall Algoma Utilities be liable for any incidental or consequential damages.

COOLING TIPS

Take these steps to increase the efficiency of your heating and cooling system.

- Keep air registers and vents clear of obstructions to allow air to flow freely throughout the room.
- Set your thermostat higher in summer.
- In cooling mode, each degree you set your thermostat above 75 degrees will save you about 3 percent.
- For convenience, install a programmable thermostat that automatically adjusts the temperature depending on the time of day and day of week, saving you more than \$100 a year.

| <input type="checkbox"/> Check condensate pump and drain line | <input type="checkbox"/> Lubricate moving parts and clean indoor fan |
| <input type="checkbox"/> Check thermostat | <input type="checkbox"/> Check voltage |

SIGNATURE (applications submitted without signatures will not be paid)

- I understand that this offer provides a \$35 incentive for the inspection and tune-up of central air conditioners no larger than 5 tons at residences currently receiving electricity on a retail basis from Algoma Utilities.
- I agree that Algoma Utilities reserves the right to verify sales receipts before issuing incentives.
- I agree that Algoma Utilities does not guarantee that the inspection and tune-up or the implementation of any energy efficiency measure described in this application will result in energy cost savings.
- I understand that this program has a limited budget, and that applications will be accepted on a first-come, first-serve basis, until allocated funds are spent. This program may be modified or discontinued at any time without notice.
- I certify that all statements made in this application are correct to the best of my knowledge. I agree to the terms and conditions of this offer as set forth on this application.
