## Digger's Hotline

The summer project season is here. Call 811 or visit [www.diggershotline.com](http://www.diggershotline.com) before you start any digging project. Wisconsin law requires that anytime you disturb the ground's surface that you call Digger's Hotline. The consequences of not calling Digger's Hotline can be fatal and very expensive.

When you call Digger's Hotline they will notify all utility providers of your intention to dig. Please allow 3 business days for utility personnel to come and mark the location of their facilities.

## Energy costs more in the summer.

Because of increased air conditioning use, overall customer demand for electricity is at its highest in the summer months – and our cost to serve you is also the highest in the summer. Due to higher costs across the electric system, your bill is likely to increase during this time of the year.

Here are some ways to save energy and lower your bill during the summer:

- Plan chores that require electricity for off-peak hours - 8 p.m. to 8 a.m.
- Close shades and blinds during the day to block some of the sun's warmth.
- Open the windows for fresh air and use fans when you need a little cooling effect.
- Utilize ceiling fans to circulate the air - they can make it feel 4 degrees cooler.
- Window A/C units should be shaded or kept out of the sun.
- Have your A/C unit tuned-up.
- Seal up cracks and spaces so conditioned air does not get outside.
- Grill out to avoid heating up your house.
- Unplug electrical devices you don't use.
- Line dry clothes.
- Change to LED bulbs.
- Unplug extra refrigerators/freezers. If you must have a spare the best area to keep it is in your basement. They work harder to keep items cold or frozen in the garage.

## A/C Tune-Up Incentive

We offer cash incentives to encourage regular inspection and maintenance of central air conditioners. A/C units can lose up to 5% of their original efficiency for each year of operation. If you are a homeowner or business owner with a central air conditioner, you may be eligible for up to \$35 toward a professional service inspection and tune-up. Central air conditioning units of 5 tons or less that have not had a tune-up within the **last three years** are eligible. For more information you can contact our office at 920-487-5556 or you can visit our website at [www.algomautilities.com](http://www.algomautilities.com) and look for the A/C Tune Up icon at the bottom of our home page.

WHEN YOU'RE IN FOR ENERGY EFFICIENCY, WISCONSIN IS IN FOR HELPING YOU SAVE.
